SUMMARY

Front-End Engineer with 2 years of professional experience. Skilled in both front-end and back-end development, with a strong focus on React. Proven ability to collaborate with cross-functional teams and deliver high-quality solutions in fast-paced environments.

WORK EXPERIENCE

Frontend Software Engineer, Zenitech

Nov 2022 - Present

Zenos

- Currently working closely with company leadership on developing an internal tool designed to optimize employee allocation and resource management.
- Actively collaborating with stakeholders to ensure the tool meets organizational needs, aiming to streamline workforce planning and improve operational efficiency across departments.

Cambridge Assessment

- I was directly responsible for front end engineering in two Cambridge Assessment exam systems.
- Contributed to the development of the new Cambridge Assessment design system, used across multiple projects to create a cohesive and scalable design framework.
- Handled the onboarding process for Cambridge Assessment new team in India. On-boarded all of the Front-End Engineers to the project and streamlined their work to match Lithuanian and UK standards.

React Native apps

- Developed, optimized, and successfully published an internal mobile app at the request of the CTO, meeting Apple App Store and Google Play standards for performance, security, and user experience.
- Contributed to the development of a gamified onboarding app for company interns, implementing new designs and features to improve user experience.

PlanningChess

- Contributed to the development of internal gamified tool designed to streamline sprint planning by integrating a chess-based strategy for task management.
- Led both front-end and back-end development, implementing intuitive user interfaces while ensuring smooth data handling and functionality on the server-side.

A lot of jobs not related to IT

Oct 2015 - Aug 2022

- Mostly I have worked in construction sites or warehouses in Lithuania, Great Britain and Norway.

EDUCATION

Bachelor of Informatics

2015 - 2021

Vilnius University, faculty of Mathematics and Informatics, Vilnius (Lithuania)
